# Intro

Existence needs another perspective to confirm itself.  
Maybe that is why humans keep wondering and searching for other life forms.

Meanwhile, there are always such anecdotes about the existence of aliens on Earth, like aliens hiding among us humans in disguise.

Humans may not have the ability to identify them, but aliens themselves could.

This project is about a supernatural horror story of how two kinds of aliens discover each other and try to get rid of each other.

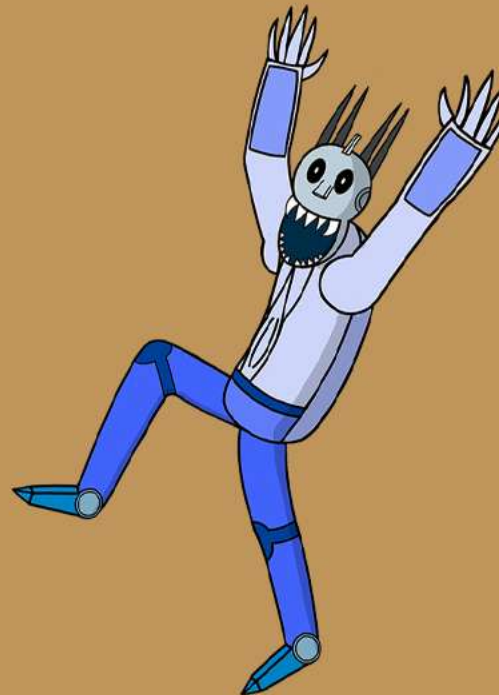

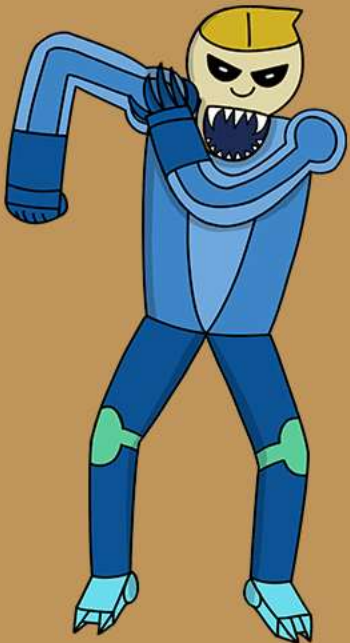

# Inspiration

Inspired by news of aliens and UFOs,

based on the assumption that alien agents are lurking in the crowd, the story of two different alien "plants" discovering each other and attempting to eliminate each other was born.
